

Technology	FDM
Build Volume (WxDxH)	325*325*315mm
Dimensions (WxDxH)	553*553*601mm
Printing Speed	≤600mm/s
Extruder Flow:	35mm ³ /s @PLA Matte (Model:150*150mm single wall) Material: PLA Rapido Matte; Temperature: 240°C)
Extruder Temp	≤350°C
Hotend (Included)	Copper alloy nozzle hotend For Common materials Hardened steel nozzle hotend For Abrasive materials
Chamber Temperature Control	65°C Independent Chamber Heating
Nozzle	Compatible with All polymers, 0.2, 0.4, 0.6 and 0.8mm
Filament Diameter	1.75mm (supports PLA, PETG, ASA, ABS, etc.)
LCD Screen	5" Screen
